ISLĀM

IMĀN

IHSĀN

Islam is the teaching technology and technique that leads a camel rearer and rider to induction of communication with the cosmos and cosmogony.

Iman is the practical and visual dress and address, and colour and creed of a believing man and woman that command the self and surroundings with the mightiest mega and saga. **Iman** only dominates, and never dominated.

Ihsan is the technology and the teaching that makes men and women indestructible. Because the indestructible soul dominates him or her. Such men and women possess **Islam**, **Iman** and **Ihsan**.

The present day men and women of letter and technology without soul search are not human being worth the name. They portray dogs and bitches run one after another!?

The present day muslims are not Muslims!?

Tomorrow's world is for real Muslims.

Today we call the Muslims prepare to possess the universe of tomorrow.

Islam is Globalization under the law of its Creator. **Muhammad** (saws) is the final shaper of the mission of Noah, Abraham Moses and Jesus (swas). Zaid, Bilal, Ibn Masood, Ammar, Suhaib, Salman and Usamah are his ideal contingent. After his death, the Qureishi Khilafat, Umayyad and Abbaside dynastical rule was imperial colonialism in the name of **Islam**. Their conquests were worst than the carnage of Chengheez and Halaku Khan.

The invasion of Arabs, Mughals, Sultan Mahmud, Ahmad Shah Abdali and alike on India had no unison with Islam.

The Muslims have **Islam**, **Iman** and **Ihsan** together. They rise above all colours races and ages. They are not Arabs, Easterners and Westerners. They are vast as the universe is. They are not the muslims of a mere uniform. Rather they are a colourful army of God is full uniformity.

We solemnly dedicate to help you with the possible **IT**
You are cordially invited. We want to be amongst you, not to impose on you to be amongst us.
God is witness to our call.

No body can aspire the Zenith unless he or she offers the loveliest. Men's loveliest is his early days, early hours of the day and the first part of his wealth.

We only want to share the early hours of your day, once a week, on Friday.

From day break to 11 before noon. This was meant for Jumu'ah, which is no more existent. Only the misnomer is existent.

Evening get-together is the instrument of Satan to make us forget our ultimate goal and end.
We have decided to dissociate with Satan and his associates.
We go to bed early, rise early and prepare ourselves to respond early to the call of God, in this world and the world after.

Are we taxing you heavily by inviting you once a week? Then twice a month, once a fortnight.

Not less than this can do the needful to provide you with **IT** we all need to be God's slave to serve the world of tomorrow with ultimate authority.

O who believe!

Please do not forget yourself and us for **IT**, **Islam** technology and **Iman** technology and **Ihsan** technology.

Please think when you are second with your God alone, as you have born alone, you would die alone and rise alone!

We want to be your dearest, nearest and loveliest.

Our dress and address is: 248/2 Second colony, Mazar Road, Mirpur Dhaka.
